KEY PLAN NOT TO SCALE

St. John Properties has perfected the flex/ research and development (R&D) building by utilizing a unified architecture approach that is the backbone of our development.

Most flex/R&D buildings offer 30-foot-wide spaces and 16-foot clear ceiling heights for maximum flexibility.

There are many great attributes to the park including ease of access to both the park and my practice, ample parking as well as the various amenities in close proximity to cater to my employees and clients. This park offers a welcoming environment for both my patients and employees.
