About Riverside Technology Park

Riverside Technology Park is a 44-acre research and development (R&D) park comprising of six buildings totaling 487,560 sq. ft. of space in an attractive and professional corporate environment. The park is ideally situated along the main entrance to the National Cancer Institutes's (NCI's) new 330,000 sq. ft. state-of-the-art R&D facility, home to the Advanced Technology Partnerships Initiative (ATPI). NCI's facility is the nation's only federally funded R&D center dedicated solely to biomedical research and development. Additionally, Riverside provides exceptional access to local dining, shopping, and service amenities.

The buildings in Riverside Technology Park are high-utility, economical, and efficient, offering unmatched flexibility to provide a custom-tailored facility for our tenants' specific requirements, including office, laboratories, conference, and storage uses. The single-story buildings feature expansive 30 ft. by 30 ft. column spacing, 16-ft. clear heights, high voltage electric service, impressive drive-in and loading facilities, and flexibility for unlimited space configuration options.

St. John Properties features an in-house and fully-staffed property management division, to ensure that each building continually operates at peak performance.
